Subject CSTAG re-visit of Passaic

As Jim Woolford mentioned on the call last Wed., the CSTAG needs to evaluate the Region's new analyses of the old and newly collected contaminant data, the sediment stability analysis, and the new outputs from the CSM-EMB and Sediment Transport models, before the RRB meeting. Based on your schedule, it looks like the CSTAG will need to meet with Region 2 staff and consultants sometime between July 25, when the response to the peer review comments and the revision of the CSM-EMB appendix is completed, and August 29, when the RRB meeting is scheduled.

Please let me know when you think the meeting should take place, hopefully vacations will not limit CSTAG attendance. I envision an 8-hour meeting starting at 1:00 and ending the following day around 1:00.

Steve
